

MARE IDENTIFICATION & BREEDING CERTIFICATE

FREE GAIT FARM

Please Read All Instructions Before Proceeding

- ❖ Use this certificate for all mares bred.
- ❖ Use this certificate for a single mare only. In the event of substituting another mare a new certificate is required.
- ❖ This certificate is to be completed by the mare's owner and/or licensed veterinarian. Please print legibly or type.
- ❖ Prior to the first insemination, the licensed veterinarian must review the Identification page and sign that the mare being inseminated matches the identification given.
- ❖ The breeding record must be signed on every occasion that the mare is inseminated and at each examination following insemination. It must be signed by the attending veterinarian after examining the mare 60 to 65 days after the last day bred.
- ❖ This certificate **MUST** be returned at the conclusion of the breeding season in which it is issued. The return is required whether the mare becomes pregnant or not. **Failure to return this certificate at the end of the breeding season will negate your contract.**

This Certificate is Issued for the Year of _____ To _____

MARE BREEDING RECORD

I, the undersigned Veterinarian, duly licensed by the state of _____, License # _____, do hereby attest that I artificially inseminated the mare described with the semen of the stallion FRED ASTAIR as designated on the shipping container and the inseminations were carried out in accordance with standard Veterinary procedures.

I further certify that, after careful inspection, the mare inseminated is the mare described in the certificate and fitting the description of the registry papers (if registered) by markings, color, and age. I further certify that no other mare was inseminated with the stallion semen designated for this mare and that any excess semen was properly and promptly destroyed.

I further certify that I am not an agent for the stallion owner and that I will indemnify and hold harmless the stallion owner for any claims arising from the negligent, improper, or ineffective insemination by me.
